

## RULES FOR THE VISIT TO THE "BIEN DE INTERÉS CULTURAL CUEVA DE MALTRAVIESO".

Acceptance of the visit, once you have been selected in the draw, also implies acceptance of the rules of the visit, as well as those that may be established by the guide in charge of the visit.

It should be noted that the cavity is warm and with high humidity, so the visit requires a medium physical demand and excludes people with cardiac or respiratory problems or any other type of problem incompatible with an activity in this type of environment. For this reason, minors under 16 years of age are not allowed to enter the park, and must submit a signed authorisation from their parent or guardian.

In order to minimise potential risks for visitors and to avoid possible damage to the Bien de Interés Cultural (BIC), it is compulsory during visits:

Visitors must at all times follow and obey the instructions of the responsible guide.

It is strictly forbidden to touch the paintings and/or engravings or to touch or extract the mineral formations inside the cave.

The guide responsible for the visit may terminate the visit or shorten the tour when any of the following circumstances arise:

If, in his opinion, there could be a danger to the safety of the group or any of its members.

As a consequence of the attitudes of the members of the group in general, or of any of its members in particular, when

in general, or of any of them in particular, which could endanger the physical integrity of persons or of the cave.

Exceeding the time established for visits (60 minutes per visit).
